SUMMARY

UCSD Data Science student with experience in analytics, web development, SEO, and applied AI applications.

EDUCATION

University of California San Diego San Diego, CA
Bachelor of Science: Data Science Expected June 2030
Certifications: UCI Generative AI for Business Application; Anthropic AI Fluency Framework & Foundations

PROFESSIONAL EXPERIENCE

Tustin Unified School District | *Data Assessment Intern* | Tustin, CA June 2025–July 2025

- Built 2 Power BI dashboards analyzing student assessment and CTE data across 30+ schools and thousands of student records, giving district administrators a clearer view of enrollment, performance, and program trends.
- Cleaned, validated, and analyzed large datasets in Power BI, Python, and Excel, reducing reporting errors by ~40% and improving data accuracy for 6 administrators across 3 departments.

N10 Dance Studios | *Web Developer* | Tustin, CA June 2024-July 2025

- Generated 5.8K+ organic Google Search clicks through ongoing SEO optimization, keyword targeting, site structure

- Earned 90K+ Google Search impressions at a 6.4% CTR, improving organic visibility through on-page SEO, mobile optimization, and continued website management.

Coding Creativity | *Coding Instructor* | Tustin, CA June 2025-July 2025

- Taught Python and Scratch to 20–25 students through weekly workshops covering programming fundamentals, debugging, problem-solving, and hands-on coding projects.
- Designed 10+ lesson plans and coding exercises, adapting instruction based on student performance, feedback, and different skill levels.

PROJECTS

Reinforcement Learning Research Proposal | AI Research & Analysis | Remote June 2024-August 2024

- Developed a reinforcement learning research proposal evaluating agent performance in simulated environments, with the proposed framework approved by a Caltech mentor.
- Synthesized prior reinforcement learning research to define the evaluation framework, methodology, and performance metrics for the proposed study.

Personal Brand & Content Creation | Growth Analytics | Irvine, CA January 2025-Present

- Generated 3M+ organic views across 42 short-form posts on Instagram through content ideation, editing, iterative testing, and trend-based experimentation.
- Averaged approximately 48K views and 2.1K likes per post, using performance data to identify high-performing formats and improve content reach and engagement.

VOLUNTEER & LEADERSHIP

Mentorship & Leadership Cohort | *Mentor* | Irvine, CA | Santa Ana, CA Sep 2023–May 2026

- Mentored 5 high school students through biweekly one-on-one conversations focused on decision-making, goal-setting, and navigating school and personal challenges.
- Provided ongoing feedback on course planning, time management, and extracurricular decisions over 2+ years, adjusting support based on each student's progress and priorities.

Discovery Cube Orange County | *Volunteer* | Santa Ana, CA Apr 2024–Sep 2025

- Supported STEM exhibits and public events serving 1000+ visitors, assisting with event setup, crowd flow, exhibit operations, and guest questions.
- Completed 60+ volunteer hours supporting public programming, school visits, and day-to-day museum operations, helping facilitate educational experiences for families and students.
